FORDWAY BRIDGE (Pollard Street Bridge)
spanning the Concord River at Pollard Street
Billerica
Middlesex County
Massachusetts

HAER No. MA-137

Martin Stupich, Photographer, March and May 1996, except as noted.

- MA-137-1 General view of site showing south approach; view to northwest.
- MA-137-2 General view across bridge to northwest.
- MA-137-3 General view across bridge to southeast.
- MA-137-4 General view, west elevation showing expanse of river and landscape; view to northeast.
- MA-137-5 General view of west elevation; view to northeast.
- MA-137-6 General view, west elevation showing topography; view to southeast.
- MA-137-7 General view showing south end of west elevation; view to southeast.
- MA-137-8 Detail, southern third of west elevation, showing arched-soffit T-beams on squat piers; view to southeast.
- MA-137-9 Oblique view of west elevation showing fascia beams, piers, brackets and parapet; view to southeast.
- MA-137-10 Detail, northerly spans, west side, showing deterioration; note spalls, cracks, and efflorescence; view to southeast.
- MA-137-11 Detail, west parapet, showing typical expansion joint between the two-span, poured-in-place parapet sections; view to southwest.
- MA-137-12 Detail, northern end, west parapet, showing open and misaligned expansion joint between last parapet section and northwest end post; view to northwest.
- MA-137-13 Detail, east parapet in its entire length, composed of three separate two-span sections, each penetrated by forty-four "Roman" arches; view to southeast.
- MA-137-14 Detail, southwest face of north abutment; view to northeast.
- MA-137-15 Detail, north abutment; view to north.
